

The current proposed Ferry system safety measures would effectively kill the ferry system as a viable means of commuting transportation. You can not impose airport style safety measures due to time constraints and cost. They have not been any threats nor actions ever taken against the Washington State ferries. I would be forced to move to the Seattle side in order to make a living if this was to come about.

This action is just in response to the current "lets put fear in everyone" policy of the Dictatorship of King George. Stop this panic NOW!

We the People never have asked to be protected in this manner. In life there is always some risk, and so should it be. One of our great founding fathers, Benjamin Franklin said this best, "They that can give up essential liberty to obtain a little temporary safety deserve neither liberty nor safety. In other words those that give up with out a fight deserve nothing but social death! Stop this impediment on our movement. Any country that begins to impede ones movement is nothing short of a COMUNIST BASED GOVERNMENT! Which under George bush we are so very very close to being. Love the freedoms we have and fight back! Death to the communist overlords or death to us all.
